The toxic effects of bias make headlines every day: sexual harassment, racial profiling, the pay gap. As humans, we are biased. Yet few of us are willing to admit it. We confidently make snap judgments, but we are shockingly unaware of the impact our assumptions have on those around us.

The documentary BIAS follows filmmaker Robin Hauser on a journey to uncover her hidden biases and explore how unconscious bias defines relationships, workplaces, our justice system, and technology. BIAS contemplates the most pressing question: can we de-bias our brains?

Join our movie screening with a discussion featuring the director and scientific experts!

The event is a cooperation between the U.S. Consulate General Leipzig and the Leipzig Science Network.
